

**Magee Womens Research Institute and the Alliance
for Regenerative Rehabilitation Research & Training
present:**

***Biologically-Inspired Engineering:
from human organs-on-chips to
programmable nanotechnologies***

Photo credit: Wyss Institute
at Harvard University

**Friday
June 10, 2016
BST S100A
Conference Room
11:00 am– 12:00**

**All are welcome to
attend!**

Donald Ingber, MD, PhD
Wyss Institute for Biologically Inspired
Engineering at Harvard University

*** Reception following talk
Email: ljm77@pitt.edu for more information**

**Sponsored by NIH, NICHD and
Dept. of Physical Medicine and Rehabilitation**
